

Come join us for some small town charm as we head to Fountain Green, Utah to enjoy their Lamb Days summer celebration, **July 19-20, 2019**.

History of Lamb Days

Lamb Day originated in 1932. Once known as Wool City and “the richest little city per capita in the U.S.,” Fountain Green boasted 100,000 head of sheep.

But the little town saw hard times during the depression with lamb selling at 4 cents per pound and wool at 10 cents. Sheepman had to pay freight and ride with their livestock to Denver to make delivery. It made sense to promote local lamb consumption and, thus, the annual Festival was inaugurated.

Each wool grower donated a lamb to be barbecued, and for many years lamb sandwiches were distributed for free.

Today, Lamb Days has turned into a fun city celebration. The highlights being a lamb dinner, bbq lamb sandwiches, craft show, parade, mutton bustin, watermelon eating contest and more. As of today, the official schedule has not been released. As soon as it is, I will send it out.
